

There are many options once you choose to adopt. We want to assist you in making the best choices for your family:

AGENCY INFANT PROGRAM

We prepare families for adoption, facilitate introductions with birth parents and manage the logistics of a successful placement. Many of the infants in this program come from diverse backgrounds. Families who are open to a multi-racial or African American child, experience the shortest wait times.

INDEPENDENT

Independent adoption is when birth parents and adoptive parents find one another through a source other than an adoption agency. They may meet through a physician, pastor, attorney, newspaper ad, internet site, etc. When this

connection is made, our staff will respond immediately to your request for a home study and any other needed services.

INTERNATIONAL

We can assist you in selecting the most appropriate international agency resources to meet your goal of adopting a child internationally. It is possible to adopt a child from countries in Eastern Europe, Africa, Central or South America as well as many other countries.

Out of State

Out of State adoptions occur when a child is born in one state and will be adopted by parents living in another state. Adoption Choice Inc. has numerous contacts with agencies in various states. ACI is involved in many out of state adoptions every year.

STEP PARENT

Stepparent adoptions are initiated for many reasons, including changing the child's name, establishing parental rights for the stepparent, or formally declaring the legal definitions of the family unit. ACI

can provide the required home study and court report for this type of adoption.

Relative

Relative adoption is an option for anyone biologically related to a child available for adoption (grandparent, aunt, uncle, or cousin). The relative becomes the legal parent and accepts all parenting and legal responsibilities and obligations connected to raising the child to adulthood.

PARTNER

Partner adoptions ensure both parents equal and permanent parental rights and obligations until their child reaches adulthood. Each parent can make decisions on behalf of their child which the state of Wisconsin will recognize as legitimate.

Embryo

Embryo adoption is suitable for families whose infertility does not allow them to create their own genetic families, specifically couples/singles considering egg or sperm donation, or couples/singles who want to build their family through adoption and be able to experience pregnancy and control the pre-natal environment of their child.

Adoption Choice, Inc.

is a progressive, non-profit, state-licensed, private adoption agency that provides adoption services throughout Wisconsin. Our dedicated staff is ready to help you find the answers you need as you go through a process that can be both challenging and rewarding.

We welcome prospective adoptive parents of all religious, racial, ethnic backgrounds, family composition, and sexual orientations. While Adoption Choice, Inc. is large enough to provide a complete range of adoption services, we personalize services to meet your unique needs.

We provide a wide range of adoption services including: home studies, birth parent counseling, guardianship, post-placement supervision and support.
